

POWERSTOP
EVOLUTION PLUS
 CERAMIC DISC BRAKE PADS WITH HARDWARE KIT

Performance proven ceramic formula that's virtually noise and dust-free. Each set comes with premium application specific brake hardware kit. The hardware kit will include high-quality stainless steel abutment clips, anti-rattle hardware clips, piston clips or bushings and sleeves as required per specific application.

20% MORE STOPPING POWER THAN OTHER LEADING BRANDS
OEM POSITIVE MOLD TECHNOLOGY FOR CONSISTENT FADE-FREE PERFORMANCE

- CLEAN RIDE CERAMIC** LOW DUST FORMULA
- RUBBERIZED SHIMS** NOISE FREE BRAKING
- PREMIUM HARDWARE** HARDWARE INCLUDED
- THERMAL & SCORCHED** FOR FAST BREAK-IN

Noise-Free

Dual layer rubberized shims provide virtually noise-free braking. The Evolution brake pads scored a PERFECT 10 during noise tests conducted by an independent testing facility.

PREMIUM HARDWARE IN EVERY BOX!

Premium stainless steel hardware Kit included for easy, problem-free installation.

BRAKE UPGRADE FOR TRUCKS, SUVs & 4X4s

Made for vehicles that tow / haul heavy loads or have larger tire / wheel modifications. These pads provide fade-free braking while driving through mountainous terrain as well as in day to day driving conditions

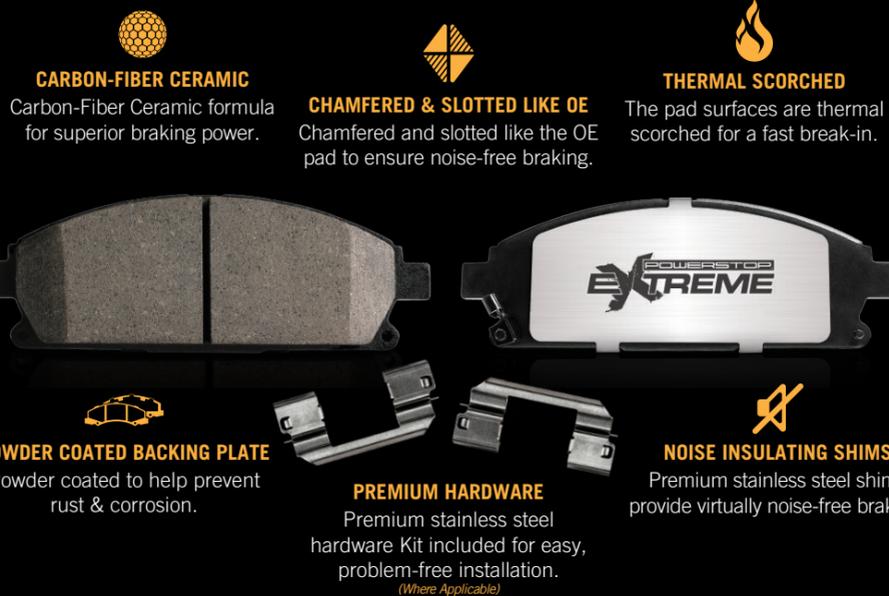

Z36 EXTREME TRUCK & TOW

Carbon-Fiber Ceramic Brake Pads for Severe-Duty Trucks & Towing

Z36 SEVERE-DUTY BRAKE PADS DESIGNED FOR HAULING, TOWING AND HILLY TERRAIN

ENGINEERED TO WORK WITH POWER STOP ROTORS FOR MAXIMUM PERFORMANCE

CARBON-FIBER CERAMIC
 Carbon-Fiber Ceramic formula for superior braking power.

CHAMFERED & SLOTTED LIKE OE
 Chamfered and slotted like the OE pad to ensure noise-free braking.

THERMAL SCORCHED
 The pad surfaces are thermal scorched for a fast break-in.

POWDER COATED BACKING PLATE
 Powder coated to help prevent rust & corrosion.

PREMIUM HARDWARE
 Premium stainless steel hardware Kit included for easy, problem-free installation. (Where Applicable)

NOISE INSULATING SHIMS
 Premium stainless steel shims provide virtually noise-free braking.

POWERSTOP
EVOLUTION TRU-CAST
 PERFORMANCE DRILLED & SLOTTED ROTORS

Drilled & Slotted for Maximum Cooling and Plated to Help Protect Against Rust

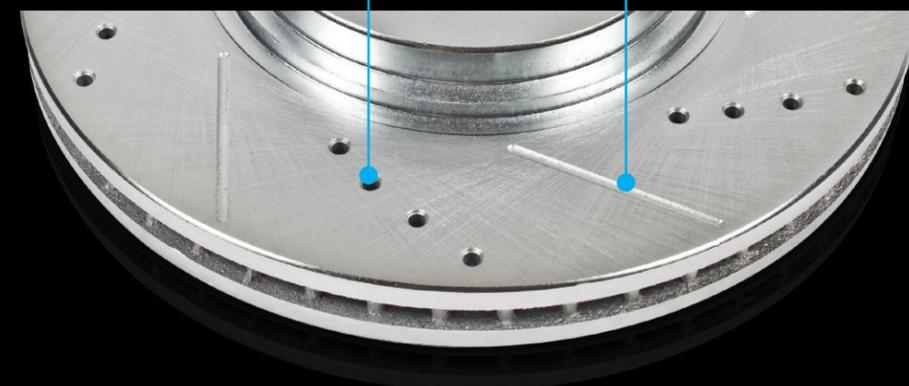

- Increased performance
- Rounded Slots
- Up to 180° Cooler
- Beveled Drill Holes
- Precise machining & casting
- Silver Zinc Plating

BEVELED DRILL HOLES

Beveled and precision drill holes help keep rotor temperatures down during extreme braking performance.

ROUNDED SLOTS

Slots keep a clear contact patch between the pad and the rotor by sweeping away gas and dust.

SILVER ZINC PLATING

All drilled and slotted rotors (except for hub rotor assemblies) are silver zinc plated to help shield against rust and corrosion.

PRECISE MACHINING & CASTINGS

Direct OE fit, rotor weight and vane count, Evolution rotors are a bolt-on upgrade over stock.

POWERSTOP
EVOLUTION COATED
 GENUINE GEOMET® COATED ROTOR

GENUINE GEOMET® 360
 FOR MAXIMUM LONG LASTING PROTECTION

The entire brake rotor is treated with a thin layer of Genuine GEOMET® 360 coating which protects against rust and corrosion without influencing the vehicle's braking performance. The aluminum silver color of GEOMET® 360 integrates perfectly with the style and design of today's open alloy wheels.

100% MILL BALANCED
CAST & MACHINED TO INDUSTRY LEADING SPECIFICATIONS
OEM VANE CONFIGURATION & WEIGHT
